Salvador Protests Treaty. Washington, June 26 - Senator Smith of Michigan today continued his fight against the proposed treaty with Nicaragua by presenting to the Senate a cablegram from Salvador protesting against such a convention.

SPLENDID SPEAKERS COMING ON JULY 6

TRUSTEES ASSOCIATION OF ANDERSON SCHOOLS

DR. WARD SPEAKS

Miss Eva Hite, President of Rural School Improvement Association Will Also Attend

When it was first determined that an association of Anderson county school trustees would be a good thing to have the idea seemed to meet with popular favor.

Miss Eva Hite, who is president of the Rural School Improvement Association of South Carolina, has accepted the invitation to be present and deliver an address and she has made definite arrangements that she will attend.

Dr. J. LaFayette Ward, head of the sanitation work of the State Board of Health and one of the best known citizens in the State, has accepted an invitation to attend the meeting and he will speak to the trustees along lines of interest to them.

J. E. Swearingen, superintendent of education, has also been invited to attend and Mr. Swearingen has written, saying that he will make every possible effort to get here and that he hopes to attend.

If the Anderson county trustees are awake to their duty, every school will be represented when the meeting is called to order in the court house on July 6.

NO LACK OF NEW TEACHERS HERE

Number of Certificates To Teach Have Been Mailed Out From Superintendent's Office

It does not seem that there will be any lack of new school teachers in Anderson county for the next session. Instead of being as scarce as they have been in times gone by, it now seems that there may be more than will be able to find situations in the immediate section.

In May, the regular teachers' examination was held in the Anderson court house and since that time the board has been hard at work on the papers, correcting them and determining as to who deserved certificates. The following is the official list as shown by the books of the county superintendent: P. M. Shockley, Greenville; Clara D. Newton, Liberty; May Veargin, Iva; Nellie Simmons, Anderson; Maude Drake, Honea Path; Ruth M. Taylor, Gilbert; Annie Lewis, Williamston; Ruby Fiquette, Lowndesville; Lola Copeland, Cheddar; Annie Beatty, Anderson; Lorena Kay, Belton; Janie Nelson, Donalds; Sarah W. Cobb, Pelzer and Nellie Newton, Liberty.

YOUNG MAN WAS GIVEN FREEDOM

Clarence O'Donald Gave Bond In Sum of \$500 to Appear and Answer Charge of Forgery

Clarence O'Donald, a young man well known around town, was released yesterday from the Anderson county jail on bond of \$500 and will appear at the next term of the Court of General Sessions to answer the charge of forgery.

BORAH READY TO FIGHT

Senator Will Place Stone in Path of Appropriations. Washington, June 26 - Another stumbling block in the path of appropriation bills is a measure of appropriation bills against the river and harbor bill, the so-called "bark barrel" measure.

SCOUTS WILL HIKE ON THE MOUNTAIN TRAIL

WILL LEAVE ANDERSON IN ONE WEEK

TRIP IS POSTPONED

Young Woodsmen, Under Direction of F. M. Burnett Will Spend Week in the Hills

The first patrol of Boy Scouts in Anderson county organized only a short while ago, but notwithstanding that fact, the scouts have made such progress that F. M. Burnett, scout master, has decided to take them on a long and tiring hike through the mountain region of North Carolina.

It had been planned to leave Anderson last Monday but the scout master was unable to complete all arrangements and it has therefore become necessary to postpone the trip one week longer. The party, some 15 strong, will leave Anderson one week from Monday, taking the train from this city to Walhalla.

The day will be spent in that vicinity and then they will begin the back trip to Greenville. The Scouts will hike all the way back into the city of Greenville and when that place is reached, they will board the train for Anderson, reaching this city exactly one week from their departure.

Mr. Burnett says that every one of the Scouts becomes enthusiastic when the trip is mentioned and he believes it will be a fine thing for the boys. They plan to carry along enough provisions to make the trip to the mountain, but there the food for the return trip will come from may depend upon ingenuity.

NEW MACHINE IS READY FOR USE

Anderson Y. M. C. A. Will Soon Begin Showing Motion Pictures in Mills Of the City

The motion picture machine which was purchased some weeks ago by the extension department of the Anderson Y. M. C. A. has arrived and within the next few days will be put to use in the mill villages of the city. The machine has been ordered by the extension department of the association, and there will be frequent exhibitions given at all of the local mill villages. The extension work in the mills this year has been particularly good.

"The machine has been ordered by the extension department of the association, and there will be frequent exhibitions given at all of the local mill villages. The extension work in the mills this year has been particularly good. There have been all sorts of campaigns in the mills, and the best of all the people in the mills have been persuaded to take a bigger interest in their homes. Under the direction of the Y. M. C. A. there has been a clean-up campaign in the mills and a great amount of good has been done.

MAKING WHISKEY CAUSES TROUBLE

Two Negroes Arrested By Sheriff On Charges of Making and Selling the Beverage

Ed Collins, a negro, is now in a cell at the Anderson county jail pending over the question of whether it is better to have made no money and retained his freedom or to have made considerable money and be languishing in a durance vile. To make a long story short, Collins is charged with making and selling liquor and when he is arraigned in court he will find that he has a tough proposition on his hands.

The Campaign. The State campaign party will be at Dillon today, and will resume at Darlington Monday. The candidates for the senate speak at Bamberg today and on Monday more in to the interior of the state, beginning at Winnsboro.

MOUNTAIN ROAD TO BE IMPROVED

W. M. Brown Writes of the Walhalla Route To Taxaway

"We are moving right along with the road and hope by July 15 to have everything completed," says W. M. Brown, chairman of the Walhalla road committee, in a letter to Commissioner Watson, discussing the Columbia-Anderson-Walhalla-Highlands and Lake Toxaway automobile highway.

"On the 15th inst," says Mr. Brown, "I went over this road from Walhalla to Highlands, N. C., and found the road in good shape with the exception of a few places, and they are not very bad, for, as you know, the Walhalla people have spent considerable money in laying out and building a road that will be both safe and pleasant to drive over. While we are still at work and do not expect to stop until we have the best road of any section from the low country to the mountains, yet there are still needed improvements."

"When I reached the Georgia line, I found some road that will require considerable attention before it will be a first-class road and yet they have done some splendid work and so that it is now very little trouble to go up the mountain. There is a section of the Georgia side that will require a lot of work to finish, but they now have a large squad of men working this part, being paid by the people of Walhalla and Highlands. Passing through this part and coming to the North Carolina line you come to one of the best made sections of the entire road, and you hardly realize that you are in the mountains or that you are climbing the mountains. The Highland people know how to do things."

"Again, referring to the trip of the 15th I will say that the trip was made in a motor truck with five other gentlemen, making the amount of weight carried about 1,700 pounds. We started from Walhalla at 12:16 o'clock, making the first lap, 12 miles, in just one hour, taking dinner at A. M. Brown's. We made the remainder of the run of 30 miles (over the worst of the road) in three hours, making the entire time for the trip four hours. The home run which was made on the 17th, occupied three and one-half hours. This would make the round trip in seven and one-half hours with a heavy motor-truck. Judging by this five or six hours would be sufficient time to make the round trip when the road is in perfect condition."

"We have a plan on foot to buy a motor truck and put on a daily round trip service from Walhalla to Highlands every day. This would give your people in Columbia and from all over the State, a chance to run up to the mountains almost any day, spend Sunday and get back to business in a short time. We would not object to them spending Sunday in Walhalla. I will also state that the Cashier's Valley road from Walhalla to Cashier's, N. C., will be worked out and will be a splendid road to that section of the mountains. I have had a letter from Mr. Pell of Cashier's saying that they had made a good road from Cashier's to the South Carolina line, with the exception of about one and a half miles, and that this would soon be made. I will also state that our end of this road will be worked out in a short time, giving us two good roads to the mountains."

"Now that these roads are nearing completion, I would suggest that you get busy and have them posted and marked and let the people know through the State that they can now reach the mountains via Walhalla. It will be glad to hear from you as to what you think will be best just at this time."

REPORTS RENDERED Carranza's Committee on Benton's Death Has Finished Work.

On Board General Carranza's Special Train, Bounded for Monterey, June 25 - Via Laredo, Tex., June 26 - The commission appointed by General Carranza to investigate the deaths of William H. Benton, an Englishman, and Gustavus Bauch, an American, both of whom it was asserted were executed, presented its report in each case to General Carranza today, but the result of the investigation was not made public.

General Ramon Fraustro, president of the commission, declined to state on whom the commission had fixed the responsibility for the deaths of Benton and Bauch, whether each had been killed by military court before execution, what the charges were on which they were executed, whether the commission had advocated the payment of indemnities for their death or other details of the report. The other two members of the commission, Miguel Lara and Manuel Silva, also were silent.

Before leaving for Monterey General Carranza also received a dispatch stating that General Trinidad Rodriguez died last night of wounds received in the taking of Zacatecas.

FARM CHAUTAUQUA FOR WILLIAMSTON

BIG UNDERTAKING FOR THAT PLUCKY CITY

AUGUST 5TH TO 7TH

The Southern Railway Dairy Car and Other Interesting Exhibits Will Be There

Williamston is to have a Chautauqua in August. This good town stated the Chautauqua spirit in this section and is putting on something new, a "Farmer's Chautauqua."

The first Farmers Chautauqua of the South will be held here in the park August 5th, 6th and 7th. It is the earnest wish of those interested in this Chautauqua that every man engaged in farming in this community will be on hand and bring your families with dinner prepared to stay 22 day. There will be instructions and exhibits to entertain the whole family. A cordial and urgent invitation is also given to those in other counties to be with us.

This Chautauqua is the first ever held in the South and it is only made by the Southern Railway with the aid of the Williamston Chamber of Commerce that we are able to have such an exhibition for the farmers. Among the interesting features of this occasion is the Southern Railway dairy car, to demonstrate the latest and sanitary methods of dairying and will have their best farm demonstrators here to lecture on different methods of farming.

Some of the largest farming implement company's will have on exhibition some of their latest farming implements. The canning process will also be demonstrated which should greatly interest every house-wife. These with other demonstrations will be presented to the people during these three days, so let every one prepare to be present and be instructed along these lines.

At night a moving picture feature will be conducted showing the different methods of farming in this and foreign countries. Remember that everything is free. So let everybody come and enjoy these three days with the Chautauqua at Williamston, August 5th, 6th and 7th. We hope to in the next weeks issue to give the Chautauqua program in full. The Chamber of Commerce and Southern Ry. have succeeded in getting some of the best Government men to be here.

SPEAKIN' OF THE WEATHER

Dr. Eugene Evans of Pendleton was in the city yesterday looking younger and spryer than any one of his boys. He has recovered from an attack of appendicitis and also from a stay at Glenn Springs. He says the water there is wonderful and made a new person of him, but the heat was terrific. And he added that the first night he got home he had to sleep under cover.

Mr. H. H. Russell, the weather observer for this section, stated yesterday that never in his experience had there been such extreme weather in June, nor had the high temperatures prevailed for such long periods and so persistently. The thermometer at his place Wednesday registers a maximum of 104 and Thursday 106. He says that is the highest ever recorded here, and the average for June will be several degrees above the average for the month. Mr. Er. D. Kay the well known merchant on the "granite row" gives some consolation. He says that he has observed for many years that June is our hottest month, with the highest temperatures. Some times September heat is felt the most because it is accompanied by humidity, but June is really the hottest month, in this particular section, and he expects to see relief later on.

LIGHTNING HELD UP INTERURBAN

Train Delayed on Piedmont & Northern Lines Thursday By Electrical Disturbance

Passenger arriving in Anderson on Thursday night over the Piedmont & Northern Lines tell a harrowing tale of the awful affairs they encountered when between Greenwood and Belton, coming up on the last car. It seems that everything was going lovely and the passengers, enjoying the fine breeze until suddenly there came a terrific clap of thunder and the lights in the car went crazy. One passenger said that they turned to all colors of the rainbow and then there was darkness.

The crew got out lanterns from various places and started an investigation, but they were not successful in finding a remedy for the trouble. Therefore, one of the crew had to walk from the place where the breakdown occurred on to the nearest telephone connection and inform Belton of their trouble. It so happened that trainmaster Croby was at Belton and he took charge of a freight engine there, pulling the train into Belton and the Anderson people arrived here at 1 o'clock yesterday morning, being on the way over two hours. For a train on the P. & N. to be two hours late is something very unusual and there was a little uneasiness until the cause of the trouble was made known.

Airy Neckwear Summer Neckwear in silk and Tub Ties. Novelty Bows. New Line of Wash Four-in-Hands just arrived. Palm Beach Suits, Belts to match. Flannel and Serge Trousers. Gotham \$1.00 Shirts, Plain Whites and all colors. Order by Parcel Post. T. L. CELY COMPANY
